#### STATE FARMERS

#### BANK PROPOSED

Oklahoma City, May 24—Establishment of a State Agricultural Bank with principal place of business in Oklahoma City, and farm loan banks over the state as auxiliary thereto, issuance of \$5,000,000 bonds to provide money to loan farmers on long time and at low rate interest and guaranteed by the state of deposits in all such banks, is provided in an initiative petition filed Friday with Secretary of State Harrison by Edmond Barragan of Norman. The petition is No. 37, and provides for the submission of a question No. 55 to the people of the state. About 20,000 signatures to the petition are necessary to have the question submitted to the people.

The proposed bill provides for the establishment of a State Agricultural Bank, with branches over the state to be known and called Farmers' Loan banks, and provides for the issuance of \$5,000,000 in bonds for the purpose of providing money to loan farmers "on long time and at the lowest possible rate of interest." The bill authorizes the establishment of the branch loan banks in any place in the state upon petition of not less than 10 nor more than 100 respectable and responsible persons whose sole occupation is none other than farming. The proposed measure makes an appropriation of \$25,000 for the purpose of carrying out the provisions of the act in the establishment of the banks.

The principal place of business named is Oklahoma City. The governing authority of the banks is vested in a board of directors, composed of the governor, chief justice of the state supreme court, attorney general, president of the Agricultural and Mechanical college and three farmers, none of whom shall be adherents of the same political party as the governor. The board is authorized and empowered to issue a charter for a Farmers' Loan bank upon petition of not less than 10 nor more than 100 farmers, provided that the combined property of the petitioners shall exceed \$10,000 in value. branch bank is held liable for all loans made to the members by the State Agricultural bank or by the branch bank, and also liable for the deposits.

The board of directors is authorized to issue bonds in the amount of \$5,000,000, in denominations of \$25, \$100 and \$1,000, redeemable after one year, and payable after twenty-five years. The state bank commissioner is given the same authority as is now given over state banks, and the state guarantee law is extended to cover the banks described in the proposed act.

## THREE DAYS OF BASEBALL FOR ADA

Ada will have the opportunity of witnessing three days of baseball next week. The Elks will play the Sulphur team Monday, Tuesday and Wednesday afternoon. The visitors have the reputation of being the genuine articles when it comes to playing ball and the Ada bunch has already made its rep, so it will be a case of Greek against Greek, which mean a real tug of war.

## MORE ROOMS NEEDED FOR NORMAL STUDENTS

Although the summer term of the normal will not open until Tuesday the teachers began arriving today and President Briles states that by Monday noon there will be a shortage of rooms unless those having rooms to rent give notice of same immediately. Plenty of rooms are available, as has been shown on previous meetings, but at this time the owners have been slow in reporting them. A serious situation will confront the normal unless something is done at once.

This afternoon when the Ada veterans and friends started for the Chattanooga reunion a very touching tribute was paid them by the normal band which accompanied them to the Frisco depot and rendered several patriotic selections. Of course "Dixie" was received with enthusiasm and the old veterans accepted the compliment in the spirit in which it was tendered, leaving Ada with a lighter heart, knowing that they were not forgotten by the ones left at home.

The Bonds substitute was passed in the house, but died in the senate after Senator Roddie had made a sharp effort to get it through.

"Our proposition will afford the people a fair opportunity to express themselves upon all of the state educational institutions," said Mr. Patterson tonight, "and what they want abolished they may indicate. The Woodard resolution is ridiculously unfair both to the schools and the people. Mr. Woodard and his associates first declare what schools shall be closed, arraying their judgment against that of all the people of the state, and then tell the voter he will have to accept that judgment in its entirety or nothing. On the Woodard proposition the people have no right to rule, whereas on ours all that right belongs to the voter."

Editor Knight of the Idabel Beacon-Times was a caller at the News office this afternoon. Mr. Knight was a prominent member of one or two of the first state legislatures and has always been a loyal and consistent friend of Ada and the Ada normal.

## SUCCESSFUL CANTATA

### PUBLIC SCHOOL PUPILS SHOW GREAT ABILITY AS ENTERTAINERS.

Frida evening the pupils of the public schools gave a cantata at the city hall opera house. This was a new line of entertainment for them, but thanks to their own ability and exertions and the careful training by their competent teachers, they made a splendid success of the ambitious undertaking. The house was crowded until there was no longer standing room and many were turned away.

The subject of the cantata was "Sylvia." The scene was laid in the old countries and the characters represented ranged from a merry group of farmers lads and lassies to the king's courtiers. It was full of interesting situations and every detail was carried out in a most charming manner.

A very great amount of the credit for the success of the cantata is due to the untiring efforts of Miss Lucas. She took hold of the musical part and pushed it forward with as much zeal as if all of the responsibility depended upon her.

## WHAT SAVED HER LIFE

Mrs. Martin Tells About a Painful Experience that Might Have Ended Seriously.

Rivesville, W. Va.—Mrs. Dora Martin, in a letter from Rivesville, writes: "For three years, I suffered with womanly troubles, and had pains in my back and side. I was nervous and could not sleep at night. The doctor could not help me. He said I would have to be operated on before I could get better. I thought I would try using Cardui. Now, I am entirely well. I am sure Cardui saved my life. I will never be without Cardui in my home. I recommend it to my friends. For fifty years, Cardui has been relieving pain and distress caused by womanly trouble. It will surely help you. It goes to the spot—reaches the trouble—relieves the symptoms, and drives away the cause. If you suffer from any symptoms of womanly trouble, take Cardui. Your druggist sells and recommends it. We have all laughed over the humor of Dickens' Pickwick papers and the author made the story so natural and life like that we have felt as though we were acquainted with Mr. Pickwick and his companions. The moving picture art now makes it possible for us to see every thing just as the book described it. John Bunny as Mr. Pickwick is at his very best and he keeps one in a roar all the way through. NEGRO DID NOT LIKE ADA HOSPITALITY

This morning Chief Boln located a negro asleep in an obscure corner of the compress and thinking he might be wanted somewhere, took him in tow for further investigation. Everything went well for a short distance, when the negro broke and made a run for it. The chief gave chase, firing two or three shots in his direction, kicking up the dirt around his feet, but this only gave him fresh speed and the only reason he did not fly was because he had no wings. Several others gave chase and finally rounded him up at the Texas Oil Co.'s house. He said he was from Texas.

# A NEW PERFECTION OIL STOVE

**T**HE New Perfection Oil Stove is not an experiment, not an innovation, not a dream—it is a practical, economical, labor-saving, strength-conserving cooking stove. It is safe to handle, there being no danger whatever in using the stove. The New Perfection is a money-saver in fuel, requiring very little oil to cook a meal. It saves work, because it requires only the turn of a screw and a match to start a fire—no long waits for wet, sobby wood or slow-burning coal to catch fire. And best of all this stove saves the housewife's strength—no sweltering kitchen or blistering fire to sap a woman's vitality in those long summer days when it is hard enough at best to keep going.

## What Ada Women Say:

**MRS. J. W. DAVIS**  
I regard the New Perfection Oil Stove an inexpensive luxury; that is, that it gives us good results at no more cost, less heat in the room, and we find it such a convenience in boiling dinner, as we can use only one lamp if we wish and do not have to replenish the fire so often. Oh, how quickly we can prepare breakfast—ready for cooking as soon as lamp is lit.

**MRS. J. W. DAVIS.**  
**MRS. ALDRICH**  
I consider an oil stove a great luxury, a labor saver, and a fuel saver in every woman's kitchen. I am using

a New Perfection and find it very satisfactory.

**MRS. C. S. ALDRICH.**  
**MRS. YEAGER**  
Perfection No. 3 is very satisfactory and economical. Gives as good service in winter as summer. The oven gives perfect satisfaction.

**MRS. A. B. YEAGER.**  
**MRS. CHILDRESS**  
My friends induced me to buy a New Perfection Oil Stove. I find it very satisfactory in every way.

**MRS. SKINNER**  
Two years ago I bought a second-hand Perfection Oil Stove and am still using it. As its name implies, it is perfection in the stove line. I can cook anything on it that can be cooked on a wood stove, and as there is no time lost in waiting for it to heat up, it is the greatest possible convenience. It requires less attention than an oil lamp and I find that oil is cheaper fuel than wood or coal. In summer time I keep it on the back porch and in this way the house is never heated up as would be the case with any other kind of stove. Furthermore, it is perfectly safe.

**MRS. LURA SKINNER.**

**MADAM:** You should have this stove in your kitchen. It will do everything claimed for it. We will bring a stove to your home, show you how to operate it, let you try it a few days—then if it is not satisfactory we come and get it, you pay nothing. We will sell to responsible parties on easy installments.

### Training Outweighs Long Service

There is no better proof of this than the every-day scenes of long service, untrained employees at the beck and call of younger men who occupy the big positions because of their training. It's a case of Training vs. Long Service—with the odds in favor of the trained man.

Get out of the untrained rut. Mark and mail the attached coupon and let the I. C. S., of Scranton, tell how you can qualify for a better position. How you can protect yourself against servitude in your old age. How you can become an expert at your chosen line of work.

That the business of the I. C. S. is to raise salaries is shown by the monthly average of 300 letters voluntarily written by students reporting salaries raised and advancement won through I. C. S. help. No necessity for leaving home. No books to buy. Marking the coupon puts you to no expense and places you under no obligation. **Mark it NOW.**

### Rheumatic Blood is Whole Story

Sciatica, Lumbago, and Dreaded Articular Rheumatism Cured.

You Will Feel Like an Acrobat After Using S. S. S.

There is a host of pills, powders, tablets and what-not for rheumatism, but they all lack the first essential to being a natural medicine. To begin with, rheumatism is simply a name given to designate a variety of pains, and can only be reached by irrigating the entire blood supply with a naturally assimilative antidote. True, the pains may be eased with narcotics or the acids may be neutralized for the time being. But such methods merely temporize and do not even lead to a cure. There is but one standard rheumatism remedy, and is sold in all drug stores under the name of S. S. S. It contains only pure vegetable elements and is absolutely free of mercury, iodide of potash or arsenic, and has proved a wonder for every form of rheumatism.

The recoveries of all types of rheumatism by the use of S. S. S. is a fine tribute to the natural efficacy of this remarkable medicine, for it is assimilated just as naturally, just as specifically, and just as well ordained as the most acceptable, most palatable and most readily digested food. Do not fail to get a bottle of S. S. S. today. You will be astonished at the results. If your rheumatism is of such a nature that you would like to consult a great specialist confidentially, write to The Medical Dept., The Swift Specific Co., 137 Swift Bldg., Atlanta, Ga.

The postoffice department was sent out Monday. The postoffice department has been put to no little expense since the inauguration of the parcel post system by having to return free of charge parcels from the dead letter office. Postmaster Burleson has arrived at the conclusion that if people cannot properly address their parcels, it is nothing but right that they pay the cost of having the parcels returned to them.

### GOVERNOR APPROVES CAPITOL MEASURE

Oklahoma City, Ok., May 23.—Gov. Cruce this afternoon approved the state capitol building bill, and sat for his photograph while doing so. Senator Tom McMechan, who has devoted most of his time to the Capitol legislation, was the only legislator present.

The bill will become effective ninety days after the legislature adjourns. It calls for a state house to cost \$1,500,000, and appropriates \$750,000 to begin the work. Of this amount, only \$250,000 will be raised by direct taxation. Remainder of the preliminary fund comes from donations made by Oklahoma City and \$94,000 which is "borrowed" from the game protection
